

Job Opportunity

Communications Specialist International CCS Knowledge Centre

Location: Regina, Saskatchewan

Term: May 2021 – March 2022

Intent to see impactful climate action, at the International CCS Knowledge Centre, we believe that carbon capture and storage (CCS) is essential today and into the future. Coupled with expertise and capability, our team has the drive to see momentum in the next iterations of large-scale CCS.

Join us in telling the world!

WHO WE ARE

International CCS Knowledge Centre

At the International CCS Knowledge Centre (Knowledge Centre), we take climate action seriously. We are dedicated to advancing the understanding and use of large-scale carbon capture and storage (CCS) as a means of managing greenhouse gas emissions, globally.

We know that the world can't get to net zero starting from ground zero – so we provide the know-how to implement large-scale CCS projects as well as CCS optimization. We house experts who were instrumental in the development and operations of the Boundary Dam 3 CCS Facility as well as the authors of the comprehensive second-generation CCS study, known as the Shand CCS Feasibility Study. We offer practical, hands-on experience-based guidance, technical advice for planning, design, construction, and operation of large-scale applications of CCS from thermal power to industrial processes.

Our team actively engages financiers and decision makers to ensure high-level information on CCS is conveyed with political, economic, and other broad considerations. By promoting and contributing to the technical advancement and cost reductions of second-generation CCS, organizations are better positioned to de-risk investment decisions.

The Knowledge Centre places high value on information and expertise that is permitted to be broadly shared with multiple parties. This promotes research, innovation, and deployment by reducing the cost and risk associated with new CCS projects around the world.

Job Opportunity

WHO YOU ARE

Communications Specialist

The Communications Specialist is responsible for creating content for the corporation's use in a variety of forums including the International CCS Knowledge Centre's website, blog posts, social media and briefing material. This portfolio has a strong emphasis on researching, drafting, and scheduling and posting of approved content to social media channels. Working in collaboration with team members, under the oversight of the Head, Communications and Media Relations, the incumbent will support our communication's strategy and plans by supporting, enriching campaigns that will captivate our audiences, attract stakeholders and boost brand awareness.

Qualifications

- Degree in Business Administration, Commerce, English, Journalism or other related equivalent AND/OR;
- Related professional designation(s) and/or certification(s) AND/OR;
- Three (3) years of related experience in communications related field.
- Experience in using various social media and design platforms.
- Proven working experience in social media strategy.
- Knowledge of digital marketing tactics.

Skills and Abilities

- Highly proficient in spoken and written English language.
- Attention to detail and ability to work under tight deadlines is critical.
- Ability to work within a sensitive climate with confidential and complex issues.
- Ability to work in a team environment with a focus on innovation and creativity.

We thank all applicants for their interest in this position. Please note that we will only be in contact with those individuals selected to move forward through the application process.
